Realities of social dysfunction

By The great panda

I could not put this book down! It was spine chilling to read all the accounts of murders which South Africans have been exposed to in the media. It is sad that society has produced such evil perps. Well done Piet, you are a remarkable human being, the police force needs more "old school" and honorable men in its ranks. This book allows us to indulge in the many of the sacrifices you have made for the sake of the public and for that, I salute you.

Bought the Afrikaans version of this book, as a South African living in the United States this was an excellent way to receive books from back home instantly! The author does a great job in telling the story about Piet Byleveld and the crimes he solved.
