In desperate need of revision

By Antonijo Trpimirovi?

I am very disappointed with this book and CD. Not a single thing has been revised or changed since it was first published in 2003. Moreover, it contains words and grammatical forms which are more characteristic of the Serbian language. Examples are da li + verb to form a yes-no question, da + present verb to indicate

purpose or intention, words like njen, stanica, aerodrom, avion and desiti se (in Croatian njezin, postaja, zračna luka, zrakoplov and dogoditi se respectively), and the group numbers četvero, petoro, šestoro, etc. (in Croatian četvero, petero, šestero), all of which, whilst not entirely unknown in Croatian, are more typical of Serbian speech and crop up much too frequently in this book. This is most likely accounted for by the author's having learnt outdated Serbo-Croatian in the days of Yugoslavia.

Like a tutor

By ginrummy1

I really am so glad I bought this. My husband and I are trying to learn the language and we had a tutor for about 3 months. When he left we bought this book to continue our studies and It has been so great. In some lessons it reviews what we had already learned while also introducing some new things. I love that its not just a book but actually a work book. And its so easy to read.

It introduces a conversation, then it breaks down the conversation, you can hear the conversation (if you get the discs), and then theres multiple choice questions to review what you just learned. You won't regret this purchase.
