"Long before I met him, I was a fan of his writing, and his merciless wit. He's bigger than food." (Anthony Bourdain)

Eddie Huang is the 30-year-old proprietor of Baohaus - the hot East Village hangout where foodies, stoners, and students come to stuff their faces with delicious Taiwanese street food late into the night - and one of the food world's brightest and most controversial young stars. But before he created the perfect home for himself in a small patch of downtown New York, Eddie wandered the American wilderness looking for a place to call his own.

Eddie grew up in theme-park America, on a could-be-anywhere cul-de-sac in suburban Orlando, raised by a wild family of FOB ("fresh off the boat") hustlers and hysterics from Taiwan. While his father improbably launched a series of successful seafood and steak restaurants, Eddie burned his way through American culture, defying every "model minority" stereotype along the way. He obsessed over football, fought the all-American boys who called him a chink, partied like a gremlin, sold drugs with his crew, and idolized Tupac. His anchor through it all was food - from making Southern ribs with the Haitian cooks in his dad's restaurant to preparing traditional meals in his mother's kitchen to haunting the midnight markets of Taipei when he was shipped off to the homeland. After misadventures as an unlikely lawyer, street fashion renegade, and stand-up comic, Eddie finally threw everything he loved - past and present, family, and food - into his own restaurant, bringing together a legacy stretching back to China and the shards of global culture he'd melded into his own identity.

Funny, raw, and moving, and told in an irrepressibly alive and original voice, Fresh Off the Boat recasts the immigrant's story for the 21st century. It's a story of food, family, and the forging of a new notion of what it means to be American.

Missed opportunity to say something worthwhile

By Rowing gal

I usually love books that expose me to other cultures and experiences. I didn't care for this one. I wasn't turned off by language as some others seem to be, but I was turned off by tone. Rather than giving the reader insight, it's merely a personal success story written in a "I'm too cool for you" tone. I finished it, but I don't know why.

You like basketball and hip-hop

By Matthew Mcmanus

I'm halfway through it and it's insufferable. I'd seen Eddie on Bill Maher's show a few times and he seemed interesting. Yet his memoir makes it clear he doesn't have a modest bone in his body. He talks about the appropriation of Chinese cuisine by white Americans, but he's blind to the fact that he shamelessly appropriates black culture. You like basketball and hip-hop? That's cool, but you grew up in a gated community and went to private school, so you're a little inauthentic. Eddie's pretty much a real-life version of the guy in "Malibu's Most Wanted."

know you audience, or in this case your author

By Amazon Customer

Interesting, but not at all the book I was expecting after seeing his interview on Bill Maher. Mr. Huang has much to say, but it is often difficult to follow how he is saying it. If you aren't versed in Hip Hop, you will have a great deal of trouble following much of the content.
