Every small business owner needs to read this

By Woman

Great read, once I started I could not stop until I was finished, scribbling notes along the way. For two years I was avoiding writing "About me" page on my website even though I heard everywhere how important it is to have one and that it's one of the first things clients will click on. But I just didn't know what to write about myself! After reading Go Your Own Way, it just all fell into place and I wrote my About me page effortlessly in 5 minutes. So many eye-opening tips in one book, I'll certainly be coming back to it again.

A must-read for creative business owners!

By Nina

This book, along with Kristen's blog and podcast, has helped me so much in finding purpose and direction in my small business. Go Your Own Way made me think through some big questions that I hadn't considered, but also gave me a lot of actionable items to start working on right away. And most importantly for me, reading this book helped push me out of my comfort zone, which directly resulted in me taking a giant leap and doing the thing that I really, really wanted for my business that I previously kept telling myself that I wasn't ready for. Bonus - Kirsten writes like she's talking directly to you, and before I was halfway through the book I felt like I was getting business advice from my BFF.

The only business book I need

By Jessica Daniels

I don't normally write reviews but I just had to after reading Go Your Own Way! It's the only business book I've referred to over and over again and plan to keep reviewing at least once a year. As an entrepreneur with two very different businesses (solo photography biz and a skin care studio with employees), I found this booked full of information to help me with both of them. Kristen's advice is clear and concise with lots of

room for creativity. Her no nonsense, funky, in-your-face-style makes business planning fun!
