I have been blessed by virtue of a long association with Dr. Alfred Ligon and Bernice Ligon, and it is to these two great ones, my spiritual parents, who raised me up, in their dedication to a briefly forgotten ancient way, that I give thanks. They are Master Teachers, who along with other Masters of this great tradition, teach that the soul can be set free by breaking the chains of dense material body, with a process of intense education. Thank you, our giants, from all your wild young students. Thank you a thousand-fold for our vessels of education: Black Gnostic Studies, Aquarian Spiritual Center, Aquarian Bookstore, in Los Angeles. Thank you for Uraeus, The Journal of Unconscious Life, where Uraeus Parts I-IV and Black Dot, Parts I and II were first published. Thank you for showing us that the very idea of the soul is not only a fantasy but also quite real in giving meaning to the struggles of life. Thanks for your lifetime of personal struggle and sacrifice in caring for all of us.

African Origin of Biological Psychiatry produces data pertaining to the diagnosis of genetic predispositions of historical Blackness. World experts in science have always clashed in debating the origin of man however, a Geneticist from the University of California in Berkeley, using gene analysis, recently asserted that, "all modern races derived from an African Woman." As far as biochemist is concerned, the genetic evidence for evolution of modern people is so conclusive that the counter arguments have no validity. For most Americans and African Americans, the study of origins has been approached from a Eurocentric worldview. The effect of this worldview on African Americans has been the development of mental slavery. King's research brings provisions that may challenge the very existence of biological racism that European science established to control behavior. His research is in rhythm with Neely Fuller Jr's views on African American priorities. Black Dot is an ancient symbol for blackness, it is the black seed of all humanity, the hidden doorway to the collective unconsciousness-darkness, the shadow, primeval ocean, chaos, the womb, doorway of life.
