## Review

"Readers will be turning the pages and rooting for Liz, knowing that even though no baby is coming out, the truth eventually will." -Publishers Weekly

"Full of moments that will leave readers in suspense, gasping at consequences, and rooting for the heroine as she finds her own meternity, this book is perfect for fans of Candace Bushnell." -Library Journal

"A fresh, contemporary take on love and work, marriage and motherhood, Meternity is guaranteed to surprise and delight!" -Emily Giffin, #1 New York Times bestselling author of *Something Borrowed* and *First Comes Love*

"A character so lovable, a predicament so fantastic, I could not wait to find out what happens next!" -Nicola Kraus, #1 New York Times bestselling coauthor of *The Nanny Diaries* on Meternity

"Funny, real and painfully true at times, Meternity tackles the bumpy road from singledom to modern motherhood with clever crafting and plenty of heart." -Jane Green, New York Times bestselling author of *Summer Secrets* and *The Beach House*

"A witty and wonderful look at the challenges of being a woman today. Foye's mixture of humor mixed with honesty and satire will have you laughing out loud one minute and seriously pondering the state of the modern world the next." -Lucy Sykes and Jo Piazza, authors of *The Knockoff* on Meternity

"If Bridget Jones had a modern-day BFF who worked at a New York magazine, was faking a pregnancy, and was struggling with post-30 singledom, this laugh-out-loud debut would be her book!" -Kristin Harmel, international bestselling author of *The Life Intended* and *The Sweetness of Forgetting* on Meternity

The novel your book club must discuss!

Meghann Foye was interviewed on The TODAY Show and The View regarding her new book Meternity.

"A fresh, contemporary take on love and work, marriage and motherhood, Meternity is guaranteed to surprise and delight!" —Emily Giffin, #1 New York Times bestselling author of *Something Borrowed* and *First Comes Love*

Like everyone in New York media, editor Liz Buckley runs on cupcakes, caffeine and cocktails. But at thirty-one, she's plateaued at *Paddy Cakes*, a glossy baby magazine that flogs thousand-dollar strollers to entitled, hypercompetitive spawn-havers.

Liz has spent years working a gazillion hours a week picking up the slack for coworkers with kids, and she's tired of it. So one day when her stress-related nausea is mistaken for morning sickness by her bosses—boom! Liz is promoted to the mommy track. She decides to run with it and plans to use her paid time off to figure out her life: work, love and otherwise. It'll be her "meternity" leave.

By day, Liz rocks a foam-rubber belly under fab maternity outfits. By night, she dumps the bump for karaoke nights and boozy dinners out. But how long can she keep up her charade...and hide it from the guy who might just be The One?

As her "due date" approaches, Liz is exhausted—and exhilarated—by the ruse, the guilt and the feelings brought on by a totally fictional belly-tenant...about happiness, success, family and the nature of love.

So misguided, so bitter. (YES, I actually read it, NO I don't have kids/a chip to bear)

By Avid Reader

Naturally I read the hype about this book before I read the book itself, but hey, I like a good chick lit and I thought the idea was kind of interesting, so why not try to read the book itself?

Well, here's why not.

In brief, it's poorly written. So much of it is lazy, and there are even errors in the text (could just be the kindle version I read, but was it rushed to press or something)?

Also, it's implausible. She's a 30-something woman in New York who's never found love - and yet there are no shortage of men picking her up at bars. Successful men who want a relationship with her. Riiiiiiight.

Finally, the whole premise is just ridiculous. She writes from a place of such bitterness and naivete at the same time. She never actually challenges her idea that maternity leave isn't just for relaxing - she actually seems to believe that, to her core. She also believes that the mothers in her office get advantages that the single women don't, something that is naturally born out in her experience once she starts lying about being pregnant and planning her paid leave (which is a crime, btw, but of course she never suffers any repercussions). By the end of the book, of course her best friends are all happily in relationships and/or pregnant - because that's the only ending a woman can have, natch. Maybe... maybe she's just shallow?

As a gesture of how ridiculous the book is, what eventually saves her career/life is in large part an infrequently updated travel blog she writes to highlight her "passion" - despite rarely traveling. Her blog seems to consist of photos she takes off the internet coupled with top 10 lists of places she'd like to visit. Is

this 2006???

Four Stars

By Bethany

Such a great vacation read! I caught myself giggling out loud more than once.

2 of 3 people found the following review helpful.

Read it, Loved it. Great Summer book!

By JaeWeg

Unlike most of the "reviews" here, I just finished reading the book! Meternity is 90% light narrative of a FICTIONAL young professional. It's lightly written. It's fun. It's the perfect summer read.

What I didn't bargain for are the brilliant revelations at the end, the female bonding, which ironically is the opposite flow I am seeing from the reactions of the book summary.
