About the Author

Mark Lane is an author, lawyer and activist. His was the first voice to publicly question the top secret investigation into the assassination of President John F. Kennedy, and his bestselling book, *Rush to Judgment*, was one of the first to question the Warren Commission's conclusion that Lee Harvey Oswald was the lone assassin. *A Citizen's Dissent* recounts the vast efforts of our government and the establishment media to suppress his investigation into the assassination of JFK and to silence and destroy him for his work. His later works on the JFK assassination detailed the involvement of the CIA through an actual trial in which Lane cross-examined multiple agents [Plausible Denial] and the role played by the CIA and Secret Service [Last Word]. He crossed the country speaking at countless colleges and other institutions about the murder of the president sparking the creation of the House Select Committee on Assassinations, which looked into the assassinations of Kennedy and Dr. Martin Luther King, Jr. A Freedom Rider while he served in the New York Legislature in 1961, he has defended the rights of the voiceless from his beginnings in East Harlem to Wounded Knee, where he successfully defended the leaders of the American Indian Movement. He freed James Joseph Richardson, a black man framed in rural Florida for the murder of his own seven children, from prison after serving over 20 years, many of them on death row [Arcadia]. He is a survivor of Jonestown [The Strongest Poison] and was a leader of the anti-war movement during the Viet Nam era [Chicago Eyewitness; Conversations with Americans], Lane's autobiography, *Citizen Lane*, was published in 2012.

Now, how do you know where to acquire this e-book Murder In Memphis: The FBI And The Assassination Of Martin Luther King By Mark Lane, Dick Gregory Don't bother, now you could not go to the e-book store under the bright sunlight or night to look the e-book Murder In Memphis: The FBI And The Assassination Of Martin Luther King By Mark Lane, Dick Gregory We right here always assist you to discover hundreds sort of publication. Among them is this publication entitled Murder In Memphis: The FBI And The Assassination Of Martin Luther King By Mark Lane, Dick Gregory You may visit the web link page supplied in this set then go for downloading and install. It will not take more times. Merely connect to your net gain access to as well as you can access guide Murder In Memphis: The FBI And The Assassination Of Martin Luther King By Mark Lane, Dick Gregory on the internet. Certainly, after downloading and install Murder In Memphis: The FBI And The Assassination Of Martin Luther King By Mark Lane, Dick Gregory, you could not print it.

MURDER IN MEMPHIS: THE FBI AND THE ASSASSINATION OF MARTIN LUTHER KING BY MARK LANE, DICK GREGORY PDF

Bestselling author Mark Lane, the first to question the investigation into the murder of President John F. Kennedy, and activist and author Dick Gregory combine their unique perspectives in a look at the assassination of Martin Luther King. James Earl Ray's guilty plea allowed the government to sidestep a trial, and yet his hearing, conducted without any challenge by a defense attorney, raised many questions. In *Murder in Memphis*, Lane and Gregory examine these questions and more: Dr. King's police protection was removed on the day of the assassination. Why? And by whom? Why was the same FBI squad that J. Edgar Hoover directed to destroy Dr. King responsible for the investigation into the murder? How and why was the most reliable witness prevented from testifying in court? Through exclusive documents and interviews with former FBI agents, security guards, eyewitnesses and James Earl Ray himself, Lane and Gregory present the case to the American people, so they can decide for themselves.

Murder in Memphis

By Jennifer R Faulkner

As it is a particular field of interest to me, I have probably read more about the trilogy of 1960's assassinations than most. Most conspiracy theories, however, involve a certain suspension of disbelief, and the reader, as investigator, must decide what they believe or not. Not so in Mark Lane and Dick Gregory's *Murder in Memphis*; without pointedly trying to be, their simple stating of the facts is the single most damning, disturbing, and convincing indictment of the FBI and others involved that I have ever read. Brilliantly written, the book is also meticulously researched; every source used is clearly identified and the reader gets the impression they could independently verify every statement made with relative ease. A non-stop page-turner from beginning to end; it is a must read for anyone who enjoys non-fiction.

Originally published as "Code Name Zorro"

By CB

This book was originally published as *Code Name Zorro*

Republished in the 1990's by Mark Lane and Dick Gregory as "*Murder in Memphis*," this book blows the dust off of another chapter in American Mythology - that James Earl Ray assassinated Dr. Martin Luther King, Jr in Memphis on April 4, 1968. While this is still mind-bogglingly accepted by most citizens today, few understand that as a result of Mark Lane's efforts, Dr. King's family came to the conclusion that it was not Ray that killed one of the most prominent leaders of the American 20th century. Rather, they understand it to be the result of a conspiracy involving government agents and other clandestine groups.

Lane spells out the facts from the case, setting up an excellent defense for Ray. This supposed assassin was on the run as a fugitive after escaping from prison in Missouri. As such, he wound up in Canada, and in order to make money he put himself in the services of anyone that needed odd jobs performed. Ray subsequently got involved with a man he calls "Raoul," who put him on the payroll and had him do several jobs like smuggling drugs across the border, etc. After a while, Ray ended up in Memphis, unwittingly being cast as a dupe in a grand scheme to kill Dr. King. Lane effectively shows how witnesses were intimidated into giving false information or retracting their stories. The author also painstakingly details how the State's case against Ray was feeble, and would have been blown apart in court had Ray not been squeezed into entering a plea of guilty.

Four stars, not 5, due to the chapters from Dick Gregory. If this book is ever reprinted, Gregory's part could be condensed into one or two chapters. He gives some interesting anecdotal information, such as that Ralph Abernathy called Dr. King by his given name, Michael; as well as little snippets of instances when the FBI would come to a black family's house after receiving a complaint about harassment, and simply warm their hands in the burning crosses before taking fingerprints of the victims and then going along their way. However, when he includes things like mentioning the TV show "Lassie" received a lot of hate mail from black folks because of its star dog being given a lot of screen time when dogs were being used to maul civil rights protesters, the reader might just roll their eyes. I have a feeling that these parts were inserted to take up space and fill the book out.

Regardless, this book is highly recommended. The killing of Dr. King is the kind of event that future generations and historians will look at and wonder in awe at the gullibility of the American people and the effectiveness of the "memory hole." Would that copies of this book, and others like Dr. William Pepper's *Orders to Kill: The Truth Behind the Murder of Martin Luther King, Jr.* (Warner Books) be distributed to every citizen that visits Dr. King's Memorial in DC.

9 of 12 people found the following review helpful.

Not as good as orders to kill

By A Customer

This is a fairly good book but nothing like Orders to Kill by William Pepper which is much more detailed and conclusive in its arguments. Thinking about it I guess these guys probably re-released to cash in on the time, effort and money that Pepper spent on the case. Still it is much better than Posner so...
