## BY JULIA WERTZ PDF

In 2004, Julia Wertz began a series of funny, irreverent autobiographical comics she called The Fart Party. After posting these comics online to acclaim and controversy, she eventually started collecting these comics as self-published minis which found their way to Atomic Books in Baltimore, who thought they ought to be collected into a proper book so as to garner Julia more laughs and hate mail.

As these things go, the first volume was so successful, there was a second volume. Both are now out of print, but Museum of Mistakes collects them into one book, plus numerous pages of Julia's early comic work, unpublished and/or previously uncollected comics, short stories, illustrations, process pages, hate mail, sketchbook pages, tear stains and more.

It would be a mistake not to buy this book.

By Matthew S. Bernier

If you like Lena Dunham's *Girls* for its humor and willingness to let characters be flawed, but wish the protagonist was less entitled and more self aware, Julia Wertz's *Fart Party* comics are for you. If David Sedaris' essays about his lousy jobs and odd fascinations turn you on, but you wish he was a young woman instead, this is your comic. Nobody does autobio that's crude, serious and humane quite like Julia.

if you like interesting well drawn graphic novels with some innuendo and violence then this is for you. it is well worth the read. will make you laugh, will make you cry and even may make you purchase multiple volumes to share with friends. keep in mind this book contains both volumes of *Fart Party*. which is great for if like me found somewhat hard to obtain separately. includes bonus material.

By Pelzi

I found this book to be like a comforting, interesting, quirky and frequently hilarious friend. The illustrations cover a wide range of everything from troubled personal emotions to observations of life's random moments, to images of cities and places, to a 1-page comic just for fun. I absolutely loved it. Good chance i will buy everything this artist ever makes. I couldn't say who this book is meant for/isn't meant for, but it was definitely meant for this 31 year old german public health researcher living in the States who is typing this.
