Excellent Book and DVD

By Noah

This is a great book and the DVD is even better. Very informative and well illustrated. I have been working on Chevy's for years and rebuilt my share of motors. I always wanted something like this for reference. This would be great for someone who is just learning or intermediate. Get it you won't regret it!

Good Reference

By Janet Johnson

I was impressed with the book and the DVD. As a novice to engine building I was able to follow the DVD and book with relative ease. There were a few areas of the process that are in the book that the DVD did not mention. Overall I think it is a very good tool for the novice like myself.
