The author uses good examples however

By Amazon Customer

I am a junior college student studying the social sciences, specifically Criminology, Psychology and Sociology. I have never had trouble reading any of my other textbooks however, this is a different story. The setup of the pages is hard to understand. The author uses good examples however, he uses far too many and goes in depth way too quickly. I have talked to other students and they have the same issues. Once you are done reading a chapter (usually about 30 pages a chapter), you do not even know what you just read.

Great

By Anais

I'm not the kind of person to buy books and read them for fun. This was a required text for a college course. I passed the class with the help of this book so I am pleased.
